AMA Chartered Club # 4095

38 36'25.61" N 75 53'06.52" W

6035 Shiloh Camp Road Hurlock, MD 21643

Dear Member,

Now it is appropriate to think Spring according to the calendar. I should remind all members that flying weather is coming real soon, and a bit of planning will make that time more enjoyable. Consider the following:

- Batteries charged? Radio charged? Field Box stocked?
- Control surfaces still attached to the airplane?
- Got fuel?
- Most importantly - have you made your spouse happy lately??  
On the way out the door on a glorious flying day is no time to be negotiating when you will do your yard work, painting or any task around the house. Do them now- all of them, keep asking until you are thrown out to go fly. Now everybody is happy !

A great big THANK YOU to Patrick and his pretty manager for rolling the field. Perfect timing and the equipment was sized right. Just another example of how blessed this club is - we always end up with what we need. I am working on Patrick to get his AMA current and then we can find a club membership lying around for him to use this year.

Next month, Duane and I will be at Joe Noll on meeting night - so Jack Rosemere is in charge. It would be a great opportunity to act up so that everybody appreciates how hard I work:)

See you at the field-

**Jack Upchurch**

### Our local Hobby shop:

Members are encouraged to support our two local hobby stores:

Hobby Stop in Seaford.

Hobby Town in Easton. Located at 106 Marlboro Ave, Easton (in the Ledo Pizza / Rita's strip)

410-822-7801

A meeting was called to order . . .

At 7 pm on March 11 in the Old Hurlock Train Station.

The Treasurer reported balances of \$1,979.29 in checking and \$2,944.25 in savings. Members paid up count is up to 41.

The group welcomed new member Bill Harris. Members holding membership in the SAC club and ESAC invited ESAC members to the SAC club meetings. They are trying to have presentations on various topics at meetings. John Chapis provided a lecture on "Electric Power Demystified" and offered to come and do a repeat for us sometime.

Jack updated the group on the new AMA District IV website and encouraged those wanting to share information about specific hobby topics to step up. One suggestion from the group was a blog topic on "For Beginners". Eric- if you are volunteering, I know how you can get a login.

An update on using a solar powered Ham radio weather station transmitter to provide near real time wind and temperature from the field was heard. Skip has the materials list and now need a member with a license. Stay tuned. I bought a book and will see if I can pass the test. Then we can try to work out how to get the parts and make it work.

There being no further business, the meeting was adjourned at 7:47 pm.

## Recent Photos . . .

Coming your way

"Pausing for a safety announcement" - minimal photoshop skills are dangerous, don't let this happen to you!

Not exactly warm weather

But warm enough to fly

## About Eastern Shore Aeromodelers Club

We are an AMA chartered club, with membership open to those with an interest in things that fly. Check out our website, come to the field and watch us play with our toys, and join us if you like what you see.
