Dear Member,

We have a club picnic scheduled for NEXT SATURDAY, Oct 3. Details below. Many schedule changes have been made to this event for all sorts of reasons, but the final word is Oct 3 for the event and a rain date the following Saturday, Oct 10.

The fall is always a busy time at the club.

- Our bylaws state that Club Dues will be discussed at the October club meeting and set for the coming year.
- October is also the month when nominations for club officers are set for the coming year.
- Then November is officer voting
- December is when we add free food to the meeting and call it a party

Current Officers are:

Duane Lundahl - Vice President
George Fox - Safety Officer
Jack Rosemere - Treasurer
Jack Upchurch - President

I have asked the current officers if they are willing to serve another year, and all have agreed to be nominated. If someone else is interested, the October club meeting would be the time to officially let the club know. The only rule applying to holding a club office is club membership for at least a year.

See you at the field,

Sincerely,

Jack Upchurch

A meeting was called to order . . .

At 7 pm on September 9 at the field. Treasurer reported \$2,036.39 in savings and \$2,904.55 in checking .

The club picnic plans were discussed. It will be held on Saturday, Oct 3 with a rain date of the following Saturday, Oct 10. A couple of members were working on activity ideas such as a paintball shoot out and a flying event using bean bags to make a bomb drop. Mike Diminio has donated a Stick40 raffle plane complete with radio ready to fly. Food will be provided and members encouraged to bring a dish. No charge for food.

Upcoming Officer nominations were discussed and members were encouraged to give it some thought and become an officer.

Some potential field projects were discussed. Among them were a concrete circle for the control line area, a solar powered weather station, and rebuilt pilot boxes. More study will be done on the projects.

Members were reminded to call out intentions when flying and make sure the other pilots hear you. The mix of glow, gas and electric powered aircraft can make it difficult to hear other pilots. Safety is the reason we let each other know when we are taking off and landing, let's keep it safe.

John Chapis challenged members to stick build a Rudder Only Control RC airplane for some fun fly activities in the Spring. Jack has the plan for anybody interested in giving this idea a try.

There being no business, the meeting was adjourned at 7:47pm.

About Eastern Shore Aeromodelers Club

We are an AMA chartered club, with membership open to those with an interest in things that fly. Check out our website, come to the field and watch us play with our toys, and join us if you like what you see.
