Old: 6035 Shiloh Camp Road, Hurlock, MD

IGNITER

Dear Member,

Happy July 4 !!

Summer is in full swing with progress being made on our field move. Not that it feels under control yet, but Skip managed to complete the L-shaped control line pit structure with some help from Gerry, Matt, Jack and Jack. Matt has the remaining pit structure framing in place except for rafters. We are still looking for a good time to schedule a field work day and invite members to come help out. So far, the work has been of a nature that we simply could not put a group of members to work. When we get to work that can be done standing on the ground, we think that makes more sense. Items like new pilot boxes, new

starting stands and flight line lattice install can be done by groups of helpful members. Stay tuned. Some folks are starting to find the new field and fly there. So far- so good. You will notice lots of dragon flies- they are our friends so long as you don't try to grab one. Apparently, they have all but eliminated other flying insects in the area and so we are mosquito free.

In another turn of events, we ended up with a schedule conflict at the new field with the IMAC and the Historical folks having a 150 person tented event. We opted to hold that IMAC event at the Old field while still moving the Jim Coll event to the new field. I am still getting questions about where the new field is- so here are a couple of options to check out:

You can put the coordinates into Google Earth to have a look, or search for Handsell at 4837 Indian Town Road, Vienna, MD (<http://www.restorehandsell.org/>)

We will discuss field updates at the meeting next Wednesday- which will be held at the OLD FIELD after Pizza in Hurlock.

See you soon,

Jack

A Meeting was called to order on . . .

June 12, 2019 at the Old Field at 7pm with 13 members present. The Treasurer reported \$791.31 in checking and \$2,009.81 in savings.

The club was informed about an upcoming float fly if anyone is interested in attending, the brochure was passed around.

Tom and Doug were present to discuss the newly formed "Talbot Flyers" club

to be located outside of Easton near the landfill. They are in the process of obtaining AMA chartering as well as confirming with the FAA that the field is located outside of the Easton Airport restricted flying area. They described this field as an 'auxiliary field' not wanting to compete with ESAC but to complement with added opportunities for flying in the area. The field would not allow Drones or jets once it is open for business. The AMA charter application requires a minimum of 5 AMA members and the group was short a few names, so several of us added our names to their list in support of their mission. They promised to update us as progress is made.

Events for the summer were discussed and the plan was for ESAC to be moved to the New Field by the end of July and hold both Jim Coll and IMAC at the new field. Lots of coordination to be done to get the big stuff moved. Members were told that volunteer labor will eventually be needed.

The meeting was called to a close at 7:58.

The Official 2019 Club Calendar- Check the website for more up to the minute schedule changes.

- July 10 - Club meeting at the OLD Field 7pm
- August 10-11 - Jim Coll Control Line Stunt Contest
