- FAPA - September 21, Warbird Fly In. Although Warbird theme, all, including control line are welcome.
- October 18, 19 and 20 - Huntersville Fall Contest. Will Davis CD
- November 9, 10 - RDRRC fun Fly. Tom Weedman is the Contact person

1/2 A rules to be used at Triple Tree Stunt Championships and Brodak Fly in 2019:

Tim Tipton is the Event Director for the 1/2 A stunt events.

Standard PA Rules for 1/2A Stunt Pattern

Engine 049 to .061

Full AMA Stunt pattern

Appearance points for all models built by the competitor

Maximum of 2 pilots can share a model, no appearance points for borrowed plane or arf

Eight minute time limit

Safety thong required.

Minimum stunt pattern option

1/2 A minimum AMA stunt pattern rules are stated below to obtain the goal of flying on .5 ounce tank:

The elimination of laps will help speed up the contest and allow the contestants to complete the modified pattern with all of the maneuvers included .

Three laps after takeoff lap before the wing over.

Minimum One lap between maneuvers except inverted which will be three laps.

The minimum flight plan must be declared before flight and marked on score sheet.

Takeoff and landing will be judged with field conditions taken into consideration.

## Member News

John Gibson is at a rehab center in Mooresville NC

Sonny Williams is having a knee replacement procedure on March 25

James Duckworth is having surgery on May 10

Please keep our members in your prayers.

## At The Bench

- Watt Moore is building a Brodak Cub, looks like a 25 size Bob Gieseke Bear
- Don Jenkins has a new PA75 model in finishing stages, Don also has a new workshop under construction, separate from his house, and plans a garage workshop combo.
- Max Flowe is Trimming an E-Legacy and building an electric cardinal Profile
- Rusty Knowlton is building a balsa 1/2A Cox Hyper Viper to fly at 2019 1/2A Stunt events

*Keep on Keeping on!*  
Will Davis  
President - MCLS, 2019

# The Secretary Treasurer's Report

Minutes from the February, 2019 meeting, by Don Jenkins

## Metrolina Control Line Society Meeting Minutes from 23 February 2019

Metrolina Control Line Society (MCLS) held their regular monthly meeting at Watt Moore's Home/ Flying Field and Shop. It was cold, raining and dreary, but the hotdogs, pinto beans and corn bread provided by Will Davis made it all worthwhile!

The following were present: Will Davis, Wesley Smith, Watt Moore, Don Jenkins, Howard Shenton, Max Flowe, James Duckworth, and Rusty Knowlton.

The meeting was brought to order at 2:02 PM, and the last meeting minutes were read and approved by those present.

### **Financial Report:**

The club remains financially stable and has the funds available to support the 2019 contest season and beyond. Club membership renewals are starting to trickle in for 2019, and the AMA club charter dues of \$40 were paid.

### **President's Report:**

1. John Brodak is back home and resting. The Brodak Fly-in is scheduled to happen again this year, 10-15 June! This year a new event is added to Thursday, 1/2 A stunt! Yep, the full AMA pattern with tiny planes and those cantankerous engines, should be very entertaining!
2. The next club meeting will be at Waymer Field on 23 March 2019.
3. The club needs to revive our annual ½ A day, so start building a yours now!
4. No meetings were held with WACAMA or the Parks and Recreation Department.

### **New Business:**

1. The next MCLS contest is the Carolina Classic 3-5 May 2019 at Waymer Field. The following items need to be accomplished to support the event:

- Howard Shenton: plaques
- Watt Moore: wood blanks
- Max Flowe: arrange for 3rd Porta Jon
- Will Davis: treat field for fire ants
- Don Jenkins provide catered lunch funds and cash box to Will Davis at April 27th meeting
- Pilots Choice Award: Will Davis

2. For the 2021 October Contest, new combat planes will be awarded as trophies for the combat competition. Accordingly, the Club members present voted on and approved the purchase of 5 new combat planes at \$42 each for a total of \$210.

3. Elections were held for club officers for the next two years with the following results:

- President: Will Davis
- Vice President: Howard Shenton
- Secretary and Treasurer: Don Jenkins
- Safety Officer: David Smith
- Membership Coordinator: Howard Shenton

4. Keep Duck and Stan Powell in your thoughts and prayers for full and rapid recovery from health issues.

### **Old Business:**

1. MCLS Membership fees are due now.
2. MCLS Officer Elections.
3. Keep John Gibson in your thoughts and prayers for his health issues.

The meeting was adjourned at 2:54 PM.

Respectfully,

Don Jenkins

Secretary and Treasurer - MCLS

## The Editor's Sandbox

Welcome to Spring 2019! It happened today, March 20th when the Vernal Equinox took place at 5:58 p.m. EDT. That was when the Earth's equator crossed, for an instant, through the sun's most direct rays, bathing both the Northern and Southern hemispheres in equal amounts of luxurious sunlight. Equal-Equinox... get it? And that's why our cars are yellow. And why my black cat is yellow. I personally prefer to declare March 1st as the first day of Spring, but the thermometer denies it.

But March is a good month because it's Watt's and my birthday month. We always have a club meeting about that time and eat cake cut up with a Master Airscrew propeller. That's Melissa Davis with the Weapon. She baked the cake too... good stuff. Unfortunately I won't be able to celebrate in Huntersville this Saturday, as I'll be at another party that day. Happy Birthday, Watt!

It has been warm enough since March 1st for me to get some good shop time. I can finally get back out there and become reacquainted with my languishing projects. I temporarily back burned the Cardinal, which has been on hold since my hip busted in 2017... and again in 2018. But that's finally way better than it's been since the Spring of '17, the last time I flew any serious patterns. Here's hoping I can get back into that.

Last month I wrote about the little 1/2A balsa Hyper Viper. It's a quick build and ideal for me to wake up my building skills. The wing and stab are already built, and now I'm figuring out how to vent the engine compartment and fit a bladder inside. If we have a Stunt contest at 1/2A Day this September, it'll be my weapon of choice. I hope I can fit a big enough bladder for a stunt

run in that little area. It's plenty wide and tall enough, but somewhat lacking in length. At 2-1/2 inches.

**The Stunthangar video hangout show** is growing with recent record numbers of guests. Last week we had a couple of shows with over 35 guests participating in the discussions. That includes 10 guests live in the video chat with me and another 25 joining via the YouTube text chatbox. There's a lot of expertise out there and I can always learn something new from every show. We have a lot of competition flyers and builders. On any night we might get fellows like Bob Hunt who can talk about electric power, finishing and building, which are always hot topics, and even motorcycles and guitar building. Richard Oliver joined us last week and we talked engines. People in freeflight and soaring are frequent, as are speed guys. Mike Londke even ran a Dynajet in his garage for us. A lot of them are in their workshops with phones and tablets, and their show-and-tells are entertaining. What we don't have is anyone from Carrier, so I'm putting out the call to you Carrier guys. Check in at the [Stunt Hangar YouTube channel](#) on Monday and Friday nights. From there you can talk to us with the text chatbox and we can assist if you care to be included as a video guest. We start at 9:40 Eastern time, and go on till 12:00 or even 2:00 a.m. some nights. When we go late some nights, the Western European early birds trickle in as well as Australians. We have South Americans and New Zealanders regularly too. email me for more about how to join, we'd love to expand, so every show is new stuff. Hope to see you. That's it for tonight, I'm out of room on the page. See y'all in April, and take care. — Rusty Knowlton - Editor —

Worst case scenario, at least for a contest I can sling the bladder under its belly. Might look silly, but it'll work.
